

# Thoughts to Ponder

## Building a Bright Future

Eons ago I, Jesus/Sananda, volunteered to serve the Father by bringing as many individuals living upon Earth into the Light as have chosen to do so. I and numerous others from the higher realms have constantly served mankind in their urgings to return to the Light.

In the past, many civilizations were destroyed in the cycle that takes Earth's orbit into the Photon Belt. This has happened many, many times during Earth's history, as all planets in this galaxy have orbited through this belt every 26000 years. As the planets entered the belt, the cleansing began, for third dimensional beings in a planet of duality cannot survive the thousands of years of light that extend through the belt. Those that have not raised their consciousness beyond third dimension are unable to tolerate the beautiful energy of continuous light with its higher frequency. They were allowed to reincarnate in a third level realm of duality to continue their growth in their path toward enlightenment.

This has been the pattern for planet Earth over and over. **However, this time the scenario has changed.** For Earth, herself, has had it with the cruelty of some of her inhabitants and will not accept any more damage done to her atmosphere and the production and beauty of her land, waters, and wild life. She has asked for permission to ascend and to take as many of her population as desire to go with her into a higher state of consciousness. Permission was given through the grace of God who has decided to save Earth humans from their own destructive forces. His plan is being carried out without rescinding mankind's gift of free will.

Repeatedly mankind has drudged up scenarios of the past, because those memories lie deep within him. It has been assumed that "history repeats itself." History has been repeated over and over, because humans have assumed that it will be and have felt powerless to change it. **But there is an important change in today's field of possibilities, for people are awakening to the knowledge of who they are.** They are recognizing their power, and in that recognition is revealed the power to create their own world. Instead of picturing drama and devastation, those who are moving into the Light are picturing a world of love, joy, and harmony, a return to the Garden of Eden. This out-picturing is a powerful force! And as more and more people practice it, there will be a snowball effect.

We have talked before of what to your scientists was an amazing discovery, and that is the fact that photons of light can become either waves or particles, which are responsive to thought. Mankind is beginning to realize that everything that they have considered to be an inanimate object is actually a formation of light particles. No matter how solid one may believe an object to be, it is actually light energy, which can be moved and changed. Photons of light are malleable. When one reaches a high enough frequency, or consciousness, he/she will realize the possibilities this discovery can offer. First, one has to recognize the power in his thoughts, words, or emotions. That power is creative energy.

This energy involves not only seemingly inanimate items, but human bodies, animals, trees, and plants. But consider this: it also is involved in situations! You are creative beings. The God Force provides the energy, and you can learn to use it wisely. You have for eons used it unconsciously and created many problems for yourselves and those around you. Allow this Light of God to flow into the highest good that you can envision.

So you see, your future is up to you. You can create it. Focus on the world you want to live in and the type of people you want to live with. Let that vision be with you constantly. Be specific if you like. Picture your dream world and know that it is attainable. You do not have to live in a doom and gloom future. Your world is within you. Out-picture it and create it.

Prophecies are simply fields of possibilities based on events of the past and the attitudes of people in the present. That is why events cannot be determined in a certain time frame or certainty. Always there is the possibility to change circumstances and events through consciousness.

Perhaps you have made your choice on a soul level or, perhaps on a conscious level, to go into a higher level of frequency. But there is still time if you have not. Earth entered the fringes of the Photon Belt several years ago. You have been experiencing the beginning of the cleansing by fire, water, and air. This need not develop into catastrophic circumstances in your world. You have the power to change it.

I, Sananda, have been with you during past photon belt excursions in which vast civilizations were wiped out. Always I have tried to get you to follow my path. Over two thousand years ago, as Jesus (Jeshua) the Nazarene, I set the goal and showed you the way. I have never abandoned you. However, many of my teachings have been misinterpreted, mistranslated, hidden or misunderstood. But the primary theme is, and always has been, brotherly love, compassion, kindness, and gratitude.

Follow these Universal Laws, and remember that if you love your brothers and sisters, yourself, and all living things, all other rules are fulfilled. I would add to that: RECOGNIZE WHO YOU ARE. You are sons and daughters of the Most High. You are actually an aspect of Him. You cannot be separated from Him. You are ONE. His Light lies within your heart. It is a three-fold flame of love, wisdom, and power. You have ignored it, for you do not know who you are. Recognize it! Let it guide you! It is the source of that still small voice of conscience that is constantly prodding you to be the loving, wise, and powerful being that you are. Let that God energy expand within you. Use it. Trust it. It will bring you joy.

Take advantage of this opportunity, this window of time, to rise to a frequency that will allow you to live eternally in a realm where there is no death, where there is no need to incarnate over and over and suffer the pain of leaving loved ones nor of experiencing the sorrow when they leave you.

Set your goal of what you want your future to be. You can create that new world of love, light, and harmony. Realize your creative power and focus upon the future you dream of, for it is within your heart, and you are the one who can manifest it. **Your beautiful world awaits you. Believe it and bring it forth.**
