

# Thoughts to Ponder

## The Key to Manifesting

June 2011

The Bible tells us that “In the beginning was the word...” (John 1-1)

A word, of course, is the expression of a thought. Everything that God created was preceded by a thought! That is true today and always. Thought precedes everything that we see manifested in our world, and without the thought, nothing but possibility exists. First the thought, then the out picturing of the idea in mind, or the visualization of it, followed by the belief that it will manifest. Then if impatience does not destroy our trust, it will be ours.

Always, though, there can be circumstances involved that seemingly prevent our manifesting. If you want to own something belonging to others, their trust in that it belongs to them may be much stronger than yours, for instance. Or if both sides of a football team are throwing out thoughts of winning the game, and each side visualizes its victory – well, you can ponder over the outcome. The same precepts do apply however, so think about it.

What we need to express at this time, however, in order to apply our manifesting possibilities, is the desire for peace, harmony, good health, abundance and joy in our world.

Let us start with the **thought**. Many are finding life extremely difficult at this time and are feeling helpless. The victim complex must go. It must be removed from the mind. In order to bring the good into our lives, our thoughts must be positive, not negative. We must constantly monitor our thoughts to coincide with the fulfillment of our desires. Think only about the lovely world we want for ourselves, not of possible sorrow, lack, or fear. We cannot allow those thoughts or feelings to enter our consciousness. Think only of the good awaiting you.

Next is **visualization**. Visualize the wonderful aspects of your world. See the image of its perfection. Remember, imagination and image come from the same root source. So imagine or see the world you have dreamed of living in and know that image is real and alive in the field of possibilities. So the first step of manifesting is the thought or the desire. The second is the imagining or imaging.

So now we come to the third step, **belief**. Believe in your power to make this form materialize. Know that you can make it happen. Trust in your ability to manifest the idea. Your faith will become a knowing that what you have visualized will come true. For, indeed, every thought becomes a form in the mind of God

And now, step four: **patience**. There is a time and a place for everything under the sun. It will happen in God’s time, not ours. Don’t worry about how it is going to happen. Only God knows that, and “Father Knows Best.” However, there is a way of expanding the outcome and quickening the time. We can do this by multiplying the power behind the manifestation. Each of us has a bit of the flame of God within us. But if we extend this power by focusing a million minds or more on manifesting a new world, think what that power can motivate!

If each of us follows the above steps and brings God into the equation, the manifesting can be quick and easy. But we must not expect God to do it for us. The trials and tribulations we have faced in this 3-D world have been tools for our growth and independence. They are a means of accelerating our frequencies and developing higher consciousness. This is necessary if we are to advance to a higher realm, which is God's plan and is unfolding now.

We were given free will to help us evolve. We have had much to learn in the process, for the challenges we have had to confront were mainly due to following *our* will instead of God's will. Now is our chance to prove ourselves. Individuals can promote their own growth and development. But together we can accomplish so much more. If most of Earth mankind will follow the steps above, we truly can manifest a new and glorious world! Let's give it a try. Let us bond together. We can create the peaceful, harmonic, and loving world that we all aspire to. Our universe is behind us. We are not alone. We can do it!
